### Welcome to Navarambh International Preschool

We believe in a holistic education that allows a child to grow and nurture to become an independent human being.

## About us

We believe that children are natural learners and allowing them to explore is the pathway to healthy learning. At Navarambh, we celebrate every child and their uniqueness. An age - appropriate curriculum and an unhurried childhood are the most important qualities of ours. Children learn through imitation and want to explore and experience themselves. We wish to collaborate a healthy environment through different methodologies from Rudolf Steiner's rhythm, repetition and reverence, Maria Montessori's self - directed learning and Jean Piaget's play as an integral part of development. The facilitators are loving, active, responsible and passionate about their work.

## Our Curriculum

The curriculum is carefully designed to meet the overall development of the child. It focuses on the physical, cognitive and logical thinking, fine and gross motor skills, sensorial development, social - emotional, eye - hand coordination, language work through stories, rhymes and songs, vocabulary building, alphabets with sounds, Fun with numbers, exploration, creativity and encouraging curiosity in every child.

## Mission

We strive to cherish a free young primary schooler with a memorable childhood, fun filled, independent, curious and be able to adapt to new environments.

## Vision

To create life - long learners through an unhurried childhood that gives them opportunities to explore, engage and enlighten.
